Included at Rivercamps is the Riverhouse Compound, which includes a swimming pool, a fitness center, a reception area with atrium and fireplace, a library with internet access, a dining area and a kitchen for residents to enjoy. Docking facilities for property owners are located near the Riverhouse. Trails and boards are being developed throughout the community so that residents may be able to enjoy the great outdoors. Fewer than 450 homes are planned for 1,500 acres, almost two-thirds of which will be committed to conservation.
